Kitchen Design Collection Drawer Systems

Technik für Möbel

Technik für Möbel

The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a center of the German furniture industry. Today, Hettich, still family owned, has become an industry leader with a worldwide reputation. We're one of the world's largest manufacturers of high-quality furniture fittings, with presence in more than 100 countries.

The company's success has been built on four enduring values: quality, innovation, close cooperation with customers and absolute reliability. We work to inspire our customers with our ideas and our passion.

Global presence, always close to customers.

- ▶ 38 branches and over 100 agencies across the globe
- ▶ Production sites in Germany, Czech Republic, Spain, USA, China & India

- Production sites
- Distribution offices

Kitchen Design Collection

The charisma of the ever evolving new designs and concepts from Hettich can never fail to please us. The design typology backed by the persistent functionality accounts for the wide popularity of Hettich products. Kitchen is no longer a planetary unit used only with reference to the humdum process of cooking. On the contrary the worldwide change in mental perception has also reflected a simultaneous change in the mindset of the contemporary consumer and it is precisely this wave of change which has brought about a drastic revolution in the current lifestyle. Hettich with its ever innovative range continues to satiate the changing needs of the consumer by meeting halfway all the required dimensions of the homemaker to make kitchen experience

an exciting and meaningful. Today the customer has come a long way from the past and is equally vocal for its need of a perfectly designed functional kitchen along with an exquisite demeanor. Hettich with its widespread presence all over the world gives us the assurance of complete support and guidance as per need. Hettich strictly believes in the policy of adhering to preserving the high class quality that it retains and hence comes with a guarantee of all its products as well as service. Hettich offers a wide range of drawer systems to suit the varying needs of the customers. This series contains the assimilated information on the range of products offered by Hettich.

The Secret Ingredient to Perfect Health Revealed

- 1) Hettich Intelligent Kitchens works in every kitchen!
Don't store heavy goods above shoulder level or below knee height! Avoid strenuous bending or stretching, by storing the most frequently used items in the middle zone between shoulders and hips. You can store less frequently used items higher up or lower down.

- 2) How "healthy" is your kitchen?
If you do have to lift a heavy item from below hip height, keep your back straight and let your legs do the work.

"Your back is subjected to high stresses in many situations. Seemingly harmless routine tasks can seriously affect your spine. In fact, today back problems have become something of a lifestyle disease, with around 70 percent of adults saying they frequently have back problems. This makes it all the more important to understand how we can make our daily especially, many negative factors can not be ruled out by applying ergonomic principles and intelligent space management."

- 3) Enjoy the new kitchen convenience – with functional fittings from Hettich.
Full extension drawers in base units represent excellent ergonomics. It's much easier to find and fetch out an item from a drawer like this than from a cupboard with conventional doors. Bending over, or even crawling into a cupboard, to find what you're looking for is a thing of the past.

Functional Areas

intelligent kitchens

Intelligent Kitchens turns every kitchen into an intelligent kitchen.
We'll show you how the Intelligent Kitchens concept is implemented using a Variety of kitchen layouts.

Drawer System

for more convenience
& better design in
the kitchen

At the focus of home living, a new kitchen is an expression of personal lifestyle. The drawer systems provides a wealth of options for meeting personal wishes and needs – this gives added value and a mark of distinction. Our drawer system makes it easy and inexpensive to carry external design and materials through to the cabinet interiors. Perfect in form and function, our drawer system adds convenience and captivating ideas to any space.

ArciTech

Thinking beyond tomorrow: customised design options, a huge load capacity, tremendous cost effectiveness. The ArciTech drawer system shows itself from its best side. Based on only one drawer side profile, numerous variations in design and functionality can be produced easily and efficiently. Just the way you imagine it. But this is the best of it: Even carrying loads of up to 80 kilograms, the Actro runner always ensures full access and silent, soft closing. Gentle. Strong. Versatile.

Installation Video

1. ArciTech

- Strong enough for large, heavy drawers
- Loading capacities of up to 80 kilograms.
- Available in stainless steel, silver, white, anthracite or champagne colour finishes.
- Unequalled running action that speaks quality in high end furniture.

2. OrgaStore 400

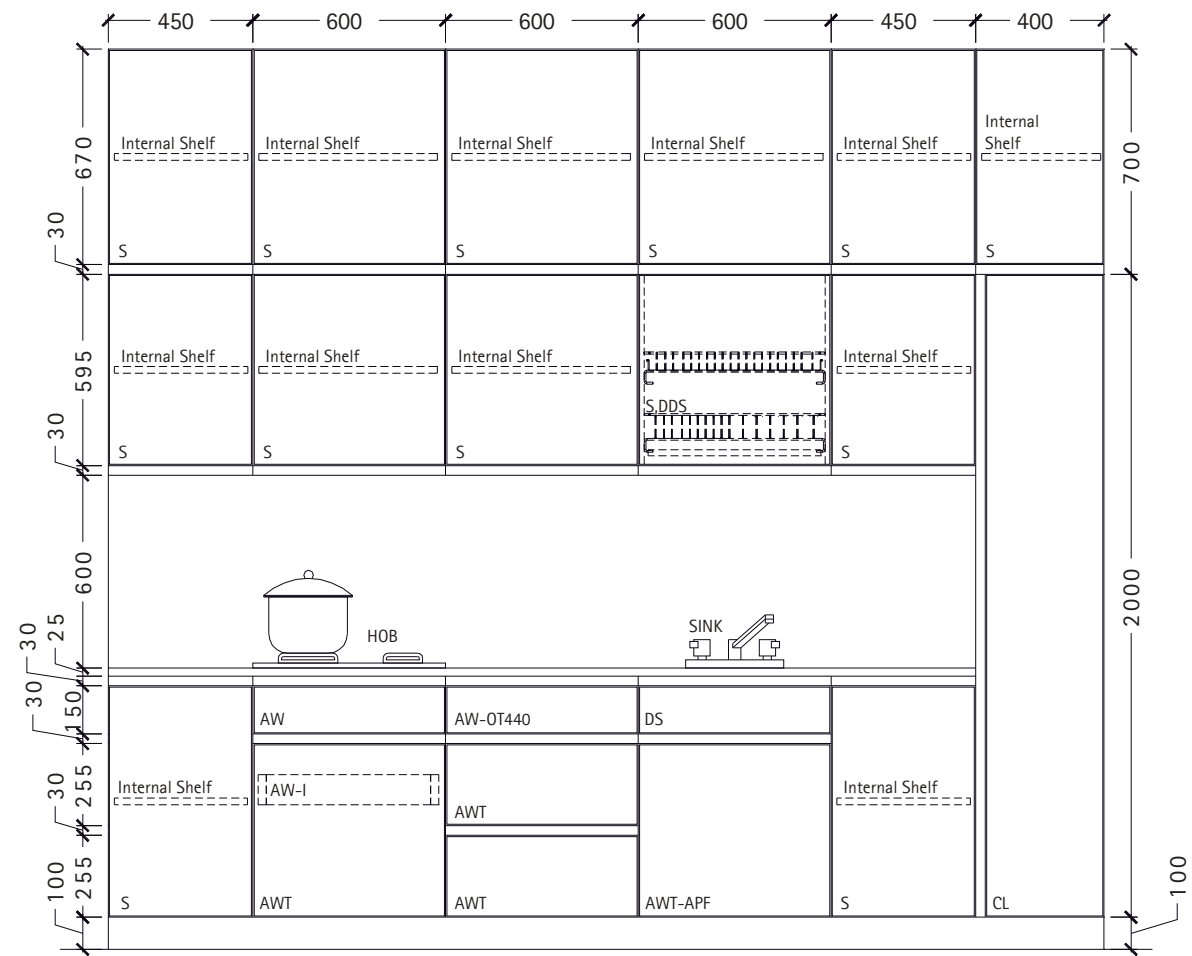

- For pot-and-pan drawer or internal pot-and-pan drawer with railing.
- Crosswise railings and lengthwise dividers must be ordered separately.
- It is recommended to fit an anti-slip mat.

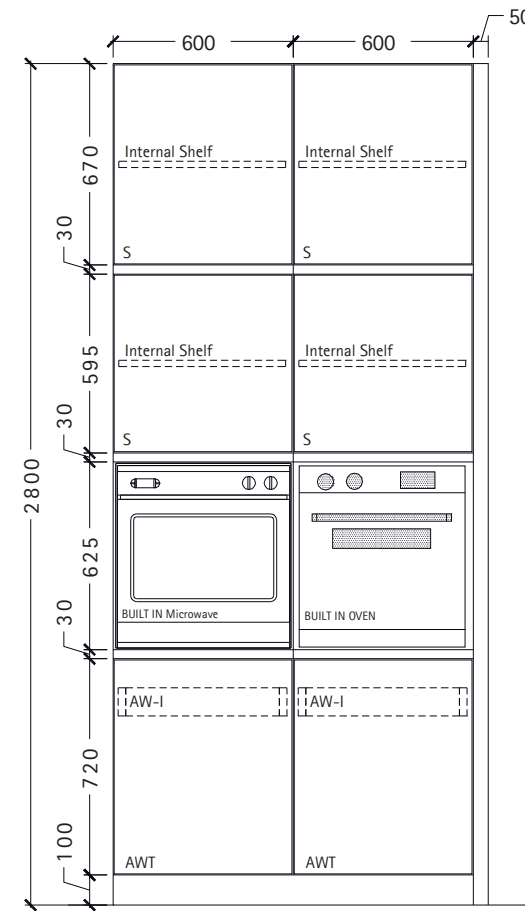

3. Aluminium Profile Handle: Eslinga

- Finish: Anodised aluminium.
